Write the Vision...

Imagine the power our children will possess when they begin to understand their true identity.

The Kingdom Kids, Speak Life Declaration Series was birthed from the heart of God and His love for His littlest believers, His children. This first book in the series teaches young children who they are in God and will help to shape the lives of all who read and impart. Just as education is important, we believe the need for Christian education is imperative in the times in which we are living.

Thank you for considering a partnership with **God first** and "**Kingdom Kids Books**". This is indeed a divinely inspired opportunity to "**speak life**" into the spirit-man of young children. Reading is fundamental and what better way to ensure the absolute success of our children by giving them God's word. Let's build the Kingdom of God, one child at a time!
