### Write the Vision...

Imagine the power our children will possess when they begin to understand their true identity.

The Kingdom Kids, Speak Life Declaration Series was birthed from the heart of God and His love for His littlest

believers, His children. This first book in the series teaches young children who they are in God and will help to shape the lives of all who read and impart. God has a plan for our children and we who are charged to care for them can be "purposeful" in raising up children in the way of the Lord. Our children can be who God says and we can help them understand this truth!

Thank you for considering a partnership with **God first** and "**Kingdom Kids Books**". This is indeed a divinely inspired opportunity to "Speak Life" into the young children. Let's build the Kingdom of God, one child at a time!
